Innovation in hearing

Get more with the Innovation range

Designed for the life you lead

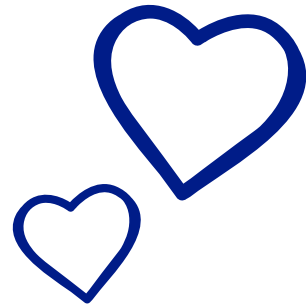

A great hearing aid isn't just about sound - but also ensuring that any hearing solution fits seamlessly into your client's life. We believe life is for living, which is why the Innovation range offers incredible sound quality, seamless connectivity and a powerful rechargeable option with lightning-fast recharge times.

Preferred by hearing care professionals

In blind testing, more than 700 hearing care professionals compared these devices with another premium hearing aid of choice. The result is a vastly more brilliant sound experience compared to the other device.¹

A great hearing experience

Clients using these devices reported that they use less listening effort and feel less tired at the end of the day. Moreover, 89% of clients said Impulse Noise Reduction helped reduce the loudness of a variety of sudden impulse noises.²

Rechargeable Solution

Features the first rechargeable hearing aid available in innovation 12.

Holds up to 30 hours of power on just a single 3-hour charge, giving you a full day of freedom.

The Desktop charger is a small, sturdy unit that is plugged into a wall outlet.

Saves time and money, while reducing waste, contributing to a more sustainable lifestyle.

No need to purchase and replace disposable hearing aid batteries.

Lifestyle & solutions

Which situations are important?

Outgoing & Social Lifestyle

Quiet home activities

Watching TV and listening to radio

Conversation in low noise background

Small meetings & gatherings

Driving
